

Reservations for 2023

THE PROCESS

There will be an initial consultation to discuss your portrait. Upon receipt of a suitable image, a deposit will be requested, and you will be added to my waiting list on receipt of payment. The remaining total will be billed when the portrait is completed.

If you require your portrait earlier, eg if it is a gift for a specific date, please let me know and if I can accommodate, I will let you know.

DIGITAL IMAGES

Images need to be in high resolution to capture all of the detail and show the direction of their fur. These can be taken with a smart phone or digital camera.

I always start with the eyes, as to me this is the soul of your pet, therefore please focus on the eyes- it is better if you are on the same level of your pet. This provides me with the best angle, and stops the proportions being distorted. I will require a head on shot and if possible, one from either side as well. You can send more photos to show their character as this is always helpful.

Natural light is best, as this shows the true colouring of your pet. Don't be afraid to use your zoom function, as if you can see the hairs and reflection in their eyes, this will add to the portrait.

PRICES

Standard A4 print with mount starting at £145 (less the booking fee already paid)

**Booking fees are nonrefundable.*
